

## Bell-ringing Features:

- Up to 157 default melodies written for up to 8 bells.
- User-friendly design that ensures an easy, fast and error-free operation
- Can be operated remotely through application for ios & Android (does not require a landline or internet connection)
- Equipped with LCD Screen that displays the functions of each program, rate, duration, program repetition and number of bells simultaneously.
- Equipped with 10 dedicated buttons that can be assigned to any melody. That way the user can choose, start & automatically stop (after the predetermined melody duration) any desirable melody at the touch of a button.
- 8 dedicated buttons (one for each bell) that allow the user to manually ring the bells.
- Can adjust electronically the intensity of the bell ringing for each bell individually, achieving the right mix between volume & melody.
- The user create & save NEW melodies.
- Can work perfectly in conjunction with most existing Bell Ringing Installations.

## Tower Clock Features:

- Operates multiple Tower Clocks
- LCD Screen that displays current time, Tower Clock time & Date
- Selection of ringing between Hours, half hours & quarters
- Can set the speed of the Ringing
- Automatic change between Summer & Winter time
- Restores the correct time automatically after power outage

## Dimensions & Power supply:
